

# MOLYSULF®

SPECIALIZED LUBRICANTS | MRO SOLUTIONS

Recommendation Guide for

**Autoconers / Winders / Mac Coners**

DELIVERING **DEPENDABLE** &  
**CONSISTENT** INDUSTRIAL SOLUTIONS

## Autoconers / Winders / Mac Coners in Textile Manufacturing Industry

Problem / Application	Smooth Solutions	Benefits
<p>For extreme pressure lubrication of traveling knotter, cams, rollers</p> <p>For lubrication of internal mechanisms inside housing of traveling knotter, spooling equipment, gear reducer units</p> <p>Build up of fibre, dust and contaminants affecting the sliding motion</p> 	<p><b>ASV R 30 Spray</b> Autoconer Spray</p> <p>MoS<sub>2</sub> Based Extreme Pressure Lubricating Oil</p> <p><b>ASV PCL 200 Spray</b> <b>ASV PCL Spray</b></p> <p>Splicer / Knotter / Cutter Cleaner &amp; Lubricant</p>	<ul style="list-style-type: none"> <li>• Forms a thin low friction oily film</li> <li>• Eliminates metal to metal contact</li> <li>• Very high lubricating effect</li> <li>• Reduces wear and friction</li> <li>• Improves running in</li> <li>• Extends life of equipment</li> <li>• Reduces lubricant consumption</li> <li>• Clear, non-staining ultra thin film lubricant</li> <li>• Cleans moisture, dust, fluff</li> <li>• Penetrates metal crevices</li> <li>• Provides mild lubrication</li> <li>• Protects from corrosion</li> <li>• No carbon residue</li> </ul>
Belts	<p><b>ASV Belt Dressing Spray</b></p> <p>For Preventing Slippage &amp; Improving Traction</p>	<ul style="list-style-type: none"> <li>• Eliminates squeaking / squealing noises</li> <li>• Provides for better operating efficiency</li> <li>• Prevents hardening, glazing, premature cracking</li> <li>• Increases life and tensile strength of belts; maintains flexibility and resilience</li> </ul>
Damping fluid for cradle adopter	<p><b>ASV PS 200 ST Oil</b> <b>ASV PS 200 ST / 1000 Oil</b></p> <p>Silicone Based Special Damping Fluid</p>	<ul style="list-style-type: none"> <li>• Excellent thermal stability when exposed to high temperatures</li> <li>• Provides maximum damping effect</li> <li>• Unusually high resistance to breakdown and mechanical shearing</li> </ul>
Adopter / Cradle / Drum / Bearing	<p><b>ASV RBL 33 Grease</b></p> <p>High Speed Synthetic Grease</p>	<ul style="list-style-type: none"> <li>• Dynamically light synthetic high speed grease</li> <li>• Highly oxidation resistant and resistant to ageing</li> <li>• Compatible with all metals and reduces friction and wear</li> <li>• Excellent adhesion to metals</li> <li>• Offers very low internal friction</li> </ul>
