

# MOLYSULF®

**GREASE** | FLUID LIKE FOR CENTRALIZED LUBRICATION SYSTEMS

Product	Benefits / Applications	Type	NLGI Grade	Operating Temperature °C
<b>FS 800</b>  Fluid Grease Synthetic	<ul style="list-style-type: none"> <li>Synthetic low-noise high speed grease for advanced and high performance, long term lubrication of plain and rolling bearings.</li> <li>Reduces friction and wear, increases service life of the equipment and cuts down on lubrication costs by increasing re lubrication intervals.</li> <li>Suited for pumping through centralized lubrication systems. Suitable for plain and rolling bearings, gear couplings, hand held power tools, fractional horse power motors, small and miniature bearings, low-noise and precision bearings, for precision mechanical and optical equipment.</li> </ul>	red synthetic oil lithium soap thickener  <b>Packaging</b> 5 kg 30 kg	1	-20 to +100
<b>LT (LF) 400</b>  Fluid Grease Heavy Duty	<ul style="list-style-type: none"> <li>Lubrication via centralized lubrication / dispensing systems where good pumpability is required.</li> <li>Suited for lubrication of heavy duty plain and rolling element bearings operating under severe operating conditions of loads, environments, temperatures or wet conditions.</li> <li>High pressure withstanding ability.</li> <li>Ideal for providing long term lubrication for gear box applications.</li> </ul>	brownish mineral oil lithium soap thickener  <b>Packaging</b> 5 kg 30 kg	>000	-30 to +100
<b>LT (LF) 1100</b>  Heavy Duty Fluid Grease	<ul style="list-style-type: none"> <li>Grease formulated for providing hydrodynamic lubrication and high pressure withstanding ability along with high thixotropy.</li> <li>Excellent resistance to water washout and reduces wear and friction by maintaining a continual lubricating film between mating surfaces.</li> <li>Can be dispensed via centralized lubrication systems.</li> <li>Use for lubrication of slide ways, guides, steel gears, rams of mechanical presses.</li> </ul>	brownish mineral & synthetic oil lithium soap thickener  <b>Packaging</b> 5 kg 30 kg	00-000	-20 to +100
<b>LT (LF) SERIES</b>  Fluid Greases for Centralized Lubrication Systems	<ul style="list-style-type: none"> <li>Ideal for lubrication via centralized lubrication / dispensing systems where good pumpability is required.</li> <li>Suited for lubrication of heavy duty plain and rolling element bearings operating under loads.</li> <li>Ideal for providing long term lubrication for gear box applications.</li> <li>Reduce friction and wear and offer high load carrying capacity.</li> <li>Offer good surface protection from wear, inhibit corrosion and also exhibit good resistance to oxidation</li> <li>Contains lead free EP additives.</li> </ul>	yellowish mineral oil lithium soap thickener lead free EP additive adhesion improver  <b>Packaging</b> 5 kg 30 kg 170 kg 180 kg	1 0 00 000	-20 to +120
<b>ML SERIES</b>  Fluid Greases for Centralized Lubrication Systems	<ul style="list-style-type: none"> <li>A family of high performance high quality, non leaded EP industrial greases based on lithium hydroxystearate soap thickener and high viscosity index base mineral oils.</li> <li>For lubrication of all heavy duty bearings and for all greasing points of machinery parts / components.</li> <li>Suited for lubrication of heavy duty plain and rolling element bearings operating under severe operating conditions of loads, environments, temperatures or wet conditions.</li> <li>Ideal for providing long term lubrication for gear box applications.</li> </ul>	yellowish mineral oil lithium soap thickener lead free EP additive adhesion improver  <b>Packaging</b> 30 kg	1 0 00 000	-20 to +130
